- highly improved Word integration

new

## Web translator

- compatible to Internet Explorer 7
- improved support for SSL encrypted pages
- support for IDN domains with umlauts and special characters
- Speech output: the program reads web pages aloud

new

## Improved translation algorithm

- very good translations even for complicated sentences
- takes care of the upper/lower case of a term
- many detail improvements

English is getting more and more important. No matter if you want to go ahead in your job or "only" use the Internet - MZ-WinTranslator V19 makes it much easier.

⚡ fast to the goal: Understand or write texts in foreign languages

new **Manual with over 400 pages**  
free on CD in PDF format

## For all Windows versions

compatible to:

- ✓ Windows 98
- ✓ Windows ME
- ✓ Windows 2000
- ✓ Windows XP
- ✓ Windows Server 2003
- ✓ **Windows Vista**

Detailed information is also available on the Internet at [www.mz-translator.com](http://www.mz-translator.com)

## Only our program offers:

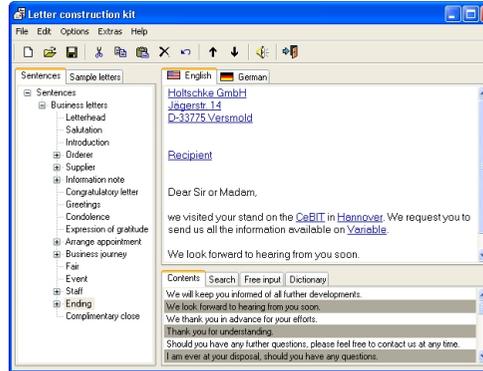

- English/German/English dictionary with more than **3,058,000** (in words: three million) entries (1 entry = vocable + associated translations)
- Translation program, dictionary, foreign language tutor, letter construction kit, and speech output combined **in one single application**
- Support for **all** browsers (Internet Explorer, Netscape, Firefox, Opera)
- Enhanced dictionary search with **automatic modification** of the search term (prefixes, endings, ...) — more than 100 search processes will be performed
- **Intelligent**, interactive dialog mode
- Fully automatic translation in the background; It is possible to read the translated text while the rest is still being translated
- No practical limit for extending the dictionaries, compressed data format and extremely fast search
- Dictionary search by **simply selecting** the respective text in the source text window
- Quick installation (fully automatic installation with only one single mouse click)
- **Satisfaction guarantee** (right to return the program within 14 days after purchase date)
- Everything for only 99.00 EUR (full version); low update prices; network ready without further costs

## Letter construction kit

The Letter construction kit allows you to create correct German and English business and private letters and e-mails in a very quick and easy way.

### Some features at a glance:

- **enhanced sentence library and new categories**
- Dictionary and translation function of the main program are always available directly in the construction kit
- Sentences which are not in the library can be translated using the translation program
- Extremely fast search function over all sentences
- Sentence library and category structure are completely editable and extendable without limitation
- Spaces between sentences and the sentence order can be edited at any time; inserting sentences in any space is possible at any later time
- Undo function (up to 50 actions)
- Speech output and print function
- Export as Text, Rich Text or into the clipboard
- Finished letters can be saved as sample letters
- Network ready without further costs
- Context-sensitive online help (English + German)
- Surface language can be entirely switched to German
